

WANT ACTION TAKEN TO AID ARMENIA

AN EXCITING DEBATE IN THE HOUSE.

Extreme Measures Against Turkey Advocated by Many Representatives—New Senators From Utah Take Their Seats—Silver Bond Bill Discussed in Detail.

Washington, Jan. 28.—The house Monday, after an interesting four-hour debate, adopted the resolutions passed by the senate last week calling on the powers signatory to the treaty of Berlin to enforce the reforms in Turkey guaranteed to the Christian Armenians, and pledging the support of congress to the president in the most vigorous action he might take for the protection and security of American citizens in Turkey. The house committee had prepared some resolutions on the same subject, but it was deemed advisable, after the senate resolutions reached the house, to substitute them for those prepared by the committee.

Mr. Quigg (N. Y.), who had charge of the bill, made an able presentation of the case, but there was a disposition on the part of some of the members to go further than the resolutions did, and Mr. Hepburn (Iowa) proposed to give the Turkish minister his passports and sever all diplomatic relations with Turkey.

When the passage of the senate Armenian resolution was announced Mr. Quigg moved that the senate resolution be substituted for that of the house. He made a brief statement of the facts which called upon congress to express its indignation at the situation in Asia Minor. It was not necessary for us, he said, to inquire into the motives which actuated a European power which decimated the outrages in Turkey with one hand and upheld the sultan with the other. But, since European powers in the name of government and humanity had pledged the sultan, and he had acknowledged the pledge, that liberty and conscience and freedom of worship should exist in every part of the Ottoman empire, and that Christians should be protected from the Kurds, we had the right to summon those powers before the high court of good faith to explain why they rested idly while 10,000 Christian homes were destroyed, while men and women were murdered, women dishonored and children sold into bondage because they refused to cry out that Mahomet was the great prophet.

In reply to a question from Mr. Mahon (rep., Pa.) Mr. Quigg said that no American citizen had suffered personal injury. As for the property of the American college that had been destroyed, Mr. Quigg said Turkey fully recognized her obligations.

Mr. Sayers (dem., Tex.) asked whether there had been any neglect on the part of the American minister, to which Mr. Quigg replied that the information from the state department was to the effect that Mr. Terrell had performed his duty with great intelligence and zeal, and from other sources of information he believed he was able to say that he had done his duty with signal ability.

"Has the committee on foreign affairs," asked Mr. Bailey (dem., Tex.) "considered the propriety of requesting the enforcement of treaty to which the United States is not a party?"

"The committee," replied Mr. Quigg, "considered it obviously proper to call on the European powers which signed the treaty to do their duty."

Mr. Bailey thought at a time when we were maintaining the propriety of European interference with the affairs of this continent it was improper that we should seek to interfere with the affairs of Europe.

Mr. McCreary (dem., Ky.) supported the resolution because he thought the cause of the Armenians was the cause of humanity and justice.

Mr. Hepburn (rep., Iowa) in a bold speech advocated going even further than the resolutions did. Thirty thousand Christians, he said, had been slaughtered by the unspeakable Turk because of their religious views. And what was it proposed to do? First, to make a mild protest, then express sympathy with those who yet remained, menaced by peril and suffering grief for slaughtered friends. "They do not want sympathy," said Mr. Hepburn impetuously. "They need rescue. They do not want words, but deeds." All the world knew that Great Britain held the Turkish bonds, and that her capitalists, to the extent of hundreds of millions, were interested in preserving the autonomy of the Turkish empire. "That," said he, "is what has kept this foul blot on the map." Russia was trying to get control of the outlet to the Mediterranean. Germany, France and Austria had interests, and the interests of all could be best served by preserving the balance of power. The resolutions would have no effect. "I want to do something," said Mr. Hepburn, "that will mean something. At the proper time I will propose as an amendment to the resolution that the president be directed to furnish the Turkish minister with his passports and terminate all diplomatic relations with the government of Turkey. That kind of a protest will mean something. Gentlemen may say," he continued, "that such a course would not be diplomatic. Perhaps so; but it would be something more than words. Let us say here to all the world that we will not recognize as a civilized government a country which

IOWA FARMERS SHOT IN A TOWN FIGHT

PIERCED BATTLE NEAR PALON, GREENE COUNTY.

John Fleck and Son Attack John Brown at His Home—The Latter Saved From Death by His Son—Two of the Participants May Die—Deeds of Violence.

Jefferson, Iowa, Jan. 28.—The bloodiest episode in the history of Greene county was enacted near Palon Sunday night. As John Brown, a respected and peaceable farmer, was sitting in his home about 9 o'clock there was a knock at the door. Supposing a neighbor had come to spend an hour he opened the door, only to look into the muzzle of a double-barreled shotgun leveled by his neighbor, John Fleck. Quick as lightning he knocked aside the weapon and jumped upon his assailant; the gun fell without having been discharged and the two men grappled and went down. At this juncture a new factor appeared on the scene in the person of George, the 17-year-old son of John Fleck, who had accompanied his father upon his murderous errand. George carried a six-shooter in each hand, and was no sooner in the house than he began firing. Brown was shot in the cheek and Fleck received a bullet through his hand.

Scarcely had the echo of the shots died away when John, eldest son of Brown, entered the house, and young Fleck began pumping lead into him. One bullet took effect in the breast, just above the heart, and another carried away a big chunk of skin from his forehead. At this moment Jim, the youngest son of Brown, a lad of only 15 years, attracted by the firing, entered the room. Realizing the situation, he grabbed a stick of stovewood and knocked the revolvers from Fleck's hand. John Brown, Jr., although desperately wounded, reached for one of the revolvers and shot George Fleck in the back just as he started to run. Jim followed and caught him, clubbing him until he was insensible.

Meantime the fearful struggle between the old men continued, and Jim returned to the house just in time to save his father from being choked to death. He dealt Fleck a blow on the head, rendering him insensible, and then turned his attention to his injured brother. As soon as the elder Brown recovered sufficiently to take a hand he seized a bottle containing powder that had fallen from Fleck's overcoat pocket and smashed it over the latter's head. Then, seizing the jagged bottle, he punched and gouged at the latter's face and head until it was literally a mass of pulp.

Within a few moments the neighbors, attracted by the shots, came to the scene. They found old man Fleck lying in the middle of the room, his head on a pillow and his feet and arms chained with a log chain. He was unconscious and a frightful sight. George Fleck was found insensible in the road, shot through the body, and Mary Brown, the daughter, who had been milking at the time the affray commenced, was found in the cow yard, where she had been knocked over with a milking stool by one of the Flecks before they came to the house.

It is thought John Brown, Jr., and the elder Fleck cannot survive. The elder Brown and George Fleck, though badly used up, will recover, and Mary Brown's injuries were not serious. The Flecks will be placed in jail to await the action of the grand jury as soon as they are able, if both of them ever are, for when John Fleck is moved it will probably be to the cemetery.

The motive for the attack is not known. The Flecks bear a hard name, and it is asserted that the neighbors, among them the Browns, have accused them of chicken stealing. It is also stated by the neighbors that the Flecks, while on their way to Brown's Sunday night, remarked at a couple of places where they stopped a few moments that they would shoot Brown or die. The latter and his family are honest and peaceable.

FIFTY WERE KILLED IN THE WELSH MINE

FRIGHTFUL RESULTS OF YESTERDAY'S BLAST.

Half a Hundred Men Entombed—Shaft Catches Fire and Adds to the Horror—Rumor That the Partition of Turkey Has Been Decided Upon—Other Foreign News.

Cardiff, Wales, Jan. 28.—The residents of the town and vicinity of Tylorstown, which is situated near here, were terrified by a terrific reverberation yesterday. The concussion was caused by an explosion in a neighboring colliery with disastrous consequences to life and property. The latest report places the number of dead at fifty-four, though it is feared that the further exploration of the wrecked mine will develop the bodies of more. Reports of the number of killed have been conflicting, and there is doubt as to the number of men in the mine at the time of the catastrophe. The first reports gave the number of miners in the shaft at fifty-four, but some of them escaped to the surface, bringing the body of one comrade with them.

The pit was found to have caught fire, and the hindrance that this caused to the work of the rescue parties added to the excitement and tension of feeling. It was only through braving the utmost peril that the living were able to prosecute their quest for the dead.

The number of the dead removed grew from twelve to fifteen and then twenty, and the list of those known to have been in the fated shaft kept constantly growing, and with it the number of bereaved families waiting at the surface. The last to come out brought with them five bodies. None have been found alive and it is not now hoped that any will be.

It was reported at midnight that more bodies had been brought to the surface of the wrecked mine, and some of those who were in the mine have been rescued alive, and are able to tell something of the occurrence. A fireman, who made his way out of the death pit by a long journey, relates that he passed numerous men on the way who were unconscious and helpless and badly burned. He could do nothing for them, and was obliged to leave them to their fate.

TO PARTITION TURKEY.

Rumor that Russia Is Preparing to Move in the Spring.

London, Jan. 28.—The Daily News prints a dispatch from Vienna which asserts that news has been received there from Constantinople and Sebastopol which agrees that Russia has a fleet lying at Sebastopol and at Odessa, and that the Caucasian armies of Russia are being concentrated upon the Armenian frontier in readiness to move next spring to realize the plans of Peter the Great for the partition of Turkey between the powers, Russia taking Armenia and Constantinople, France taking Syria and Palestine, and Great Britain taking Egypt and the eastern shores of the Persian gulf, the remainder of the Turkish empire to be divided among the other powers.

The Daily News has a dispatch from Sebastopol which records that secret preparations are going forward there of shipping armaments for a volunteer fleet. It is the general belief there, this dispatch affirms, that these preparations foreshadow some action in the spring.

Constantinople, Jan. 28.—There is a rumor here that Russia is arranging with the sultan for the occupation of Armenia, but it is not confirmed by any discoverable signs and is discredited in diplomatic circles.

London, Jan. 28.—The Chronicle has an editorial recalling the success which attended President Jefferson's sending a fleet to Algiers and advocates the great powers' formally inviting the United States to send a fleet to Turkey. "The mere sight of such a formidable display," says the Chronicle, "would suffice to bring the sultan to his senses." If, however, action were needed, the Chronicle urges that the British fleet should co-operate.

Berlin, Jan. 28.—The Berliner Tageblatt says: "It will be the duty of continental diplomacy to convince America that Great Britain's motives in the Armenia question are political and not humane, and thus dissuade the United States from co-operating with her."

May Settle Kentucky Senatorship.
Frankfort, Ky., Jan. 28.—At a caucus of the republican members of the legislature last night the ineligibility of four democratic members whose seats are not contested was thoroughly discussed and decisive action taken. It was found that one is a city attorney, one a United States examining surgeon and two are auditor's agents, and that the holding of such positions makes them, under the law, ineligible for the office of representative. The caucus agreed upon and adopted a resolution for an investigation as to the eligibility of the four democratic members, and this may settle the senatorial contest.

Gen. Joseph Porter Dead.
New York, Jan. 28.—General Joseph H. Porter died at the Grand hotel at 9:30 o'clock last night. His death was due to heart failure, superinduced by wounds received during the civil war. He was 54 years old.

ILLINOIS REPUBLICANS.

Great Gathering of the Leaders of the Party at Springfield.

Springfield, Ill., Jan. 28.—The annual reunion or love feast of the republican party of Illinois meets at 10 o'clock today in Representative Hall in the state capitol. Republican leaders by the hundred are in the capital. When Chairman Jamieson calls the meeting to order the sound of his gavel will fall on the ears of more than 1,000 representative republicans of the state. There were held yesterday many consultations, and the situation was thoroughly canvassed by the leaders, and as a result it may be said that there is every probability that the men who will be named at the republican state convention, which will be held probably in Peoria early in April, will be these:

For Governor—John R. Tanner of Clay.

For Lieutenant Governor—David Ross of La Salle.

For Treasurer—Henry L. Hertz of Cook.

For Secretary of State—John A. Reeves of Decatur.

For Auditor—Charles J. Kinnie of Rockford, or Thomas B. Needles of Washington.

For Attorney General—James M. Trullitt of Hillsboro, or D. H. Paddock of Kankakee.

The committee decided that all speakers must confine their remarks to a discussion of the time and place of the state convention and the platform, and that expressions of preferences for candidates must be avoided. It was said by some of them that they would not be bound by this rule. Should they attempt to disregard it the love feast may be the scene of much confusion. It is believed, however, that wiser counsels will prevail, and that harmony will rule.

Senator Cullom and ex-Governors Oglesby and Fifer will address the meeting by invitation. Then the congressional districts will be called for expressions of opinion, commencing with the First, then the Twenty-Second, then the Second, Twenty-First, and so on. An hour's recess will be taken for dinner, and it is expected the session will last till 6 o'clock.

In the evening the central committee will meet and fix the time and place of holding the state convention. It is expected that the place will be Peoria and the date a day not later than April 15. Some of the candidates advocate a later convention, but the earlier date will be chosen.

KELLER FAMILY ON TRIAL.

Mystery of the Death of Clara Shanks May Be Cleared Up.

Terre Haute, Ind., Jan. 28.—The three Kellers—Daniel, his wife Nannie, and sister, Maggie—were placed on trial for the murder of Clara Shanks in Park county July 6 last. A crowd that packed the courtroom to its fullest capacity and overflowed into the enclosure of the bar and ante-rooms and the corridors was present. There are over two hundred witnesses. In the death of Clara Shanks lies the deepest mystery that Indiana has known for years. The girl was very attractive. But a short distance from her home was the residence of the Kellers. Mrs. Keller charged Clara with being too intimate with her husband, and had forbidden her to put foot on their premises. The result was a sad turmoil in the Shanks family. Goaded to desperation, humiliated, the girl sprang from the dinner table in tears, and, protesting her innocence, dashed into the woods. This was July 6. Search was not begun for her until late that evening, and it was not until the next morning that her brother Daniel found her lifeless body submerged beneath the waters of Wolf Creek falls. The coroner's jury first said suicide, but later the body was exhumed and it was found that her skull was fractured and her neck broken. Detectives Harry C. Webster and L. P. Byrnes of Indianapolis, the men who were instrumental in securing the conviction of Rev. Mr. Hinshaw at Danville, were employed on the case. Within a few days they had all the Kellers in jail charged with murder.

Ambassador Runyon's Body Will Be Taken to Newark, N. J.

Berlin, Jan. 28.—Further details concerning the death of the United States ambassador to Germany, Mr. Theodore Runyon, who expired at 1 o'clock Sunday morning most unexpectedly, although he had been in ill-health for some time past, show that he awoke at midnight and complained of suffering from a pain in his heart.

Dr. Grunar was hastily summoned and when he reached the ambassador's residence, he found Mr. Runyon unconscious, dying shortly afterward. His death was painless and resulted from heart failure. Only the family of the ambassador was present at his bedside when he passed away. Mr. Runyon had two previous attacks of heart failure, but they were not considered dangerous.

The remains of the United States ambassador will be accorded a state funeral at the American church here on Wednesday. The body will be embalmed and will be taken to his home at Newark, N. J.

To Consider Urgent Deficiency Bill.

Washington, Jan. 27.—The senate committee on appropriations, through one of its subcommittees, will take up the urgent deficiency appropriation bill to-day. There are now three of the appropriation bills before the committee, the urgent deficiency, the pension, and the military bills, and it is understood to be the purpose of the committee to dispose of all appropriation bills as rapidly as possible. A prominent member of this committee has expressed the opinion that it would be possible to have the appropriation bills out of the way and have congress in a position to adjourn early in June.

BOTH EYES ON HOARD IS A MILTON HINT

WOULD-BE SENATORS GIVEN
WARNING.

Rev. Mr. Walker in Bad Shape—
Death of a Pioneer—The Farmers'
Convention Points a Moral That
Afton Men Are Quick To Accept—
County News.

Milton, Jan. 28.—Ex-Gov. Hoard's remarks before the Farmers' convention met with the approval of everybody. Would-be senators had better keep their eyes on Hoard. Rev. Mr. Walker is better than he was last week and it is probable that he will recover from the shock incident to his injury, but there is little hope of his ever being able to walk. His niece, Mrs. Hurlburt, of Evanston, Ill., is here to assist in caring for him. H. J. Walker, of Chicago, was in town this week. Mrs. Jane Barnhart, who was not expected to live, is much better and will recover. Thomas Davidson died Sunday afternoon, after months of suffering. He came to Milton from New York state in 1846, and has always resided in this village. He was a farmer, and followed that calling until age began to tell upon him. His twentieth birthday occurred on the twentieth of this month. Mr. Davidson was a good citizen and neighbor, and was respected and esteemed by all. He leaves four sons and four daughters, all of whom reside here, except J. O. Davidson, of South Dakota. Mrs. Algard of Oregon and Mrs. Powers of Lima. The funeral took place today at his late residence, Rev. F. Howarth, of Clinton, officiating. Orlan Rice, the Rockford gardener, visited his Milton relatives Saturday. Will H. Tomkins intends to spend the winter in Colorado. Some men who sold their hogs at \$3.10 a month ago, for fear of cholera, are inclined to kick themselves. Milton stock buyers paid four cents per pound for a carload of live hogs last week, which was a better figure than other markets offered.

GRIFFITH WILL PAY FOR THE BIG PICNIC

HE WANTS IT HELD AT MAYFLOW PARK.

An Offer Made to the Committee To Land 500 People on the Grounds Every Seven Minutes, and To Have Accommodations for 20,000 Visitors.

A proposition to hold the big Woodman picnic up the river is the last plan to be considered. Richard H. Griffiths has made a proposition to locate the big event at Mayflower park. The committee who have the work in charge are anything but encouraged over the apathy of business men and say the picnic cannot be given without funds. Although they prefer to have the ceremonies take place within the business portion of the city, they feel that money must be raised.

Capt. Griffiths in Earnest.

"Captain Griffiths offer was the best we have received, remarked a prominent Woodman. 'He offers a handsome bonus and guarantees to accommodate 20,000 people and to land 500 people at the park every seven minutes.'"

Those who are posted on the subject are aware that other parties are interested. In order to land 500 people every seven minutes, the Northwestern Railway company would no doubt be called upon to run special trains from this city to take point opposite the park and from there it would be an easy matter for Captain Griffiths to ferry the crowd across.

Woodmen Want a Lodge Room.

Arrangements are now quietly being made by the local lodge of Modern Woodmen, for the selection of a hall to be used for this exclusive use. The Woodmen lodge when first formed nine years ago occupied rooms in the Lappin block, and for some time past they have had quarters with the A. O. U. W., but since that time great progress has been made in their work. They now think that a hall is what is needed. No definite location has been decided upon, but those who have the work in hand will soon report on a location.

Surprised by Brother Woodmen.

As a reminder that yesterday was his thirty-third birthday, a party of Modern Woodmen and their wives surprised Charles Carpenter, at his home on West Bluff street. The evening was spent in playing clench and partaking of choice eatables, with which the guests came well provided. During the evening Mr. Carpenter was presented with a handsome Modern Woodmen pin. Those present were Mr. and Mrs. Philip Gundle, H. M. Weaver, Max Zeimer, Levi B. Caniff, Orville Morse, John Collins, Andrew Gibson, George Palmer, A. J. Hides, Mrs. L. Morse, and Messrs. Frank W. Parker and Fred Bilke.

ARIONS WERE HIGHLY PRAISED

Entertainment at the First M. E. Church of a High Order.

The Arion Concert Company delighted those who heard it in the First M. E. church last evening. From the first number on the program, Mendelssohn's "Wedding March" to the last, "Gems of Stephen Foster" the work of the orchestra was loudly applauded. The effect of Leader L. A. Williams' careful training was apparent. None the less enjoyable were the vocal selections. Archie Crawford was at his best in "My Little Woman" and his response to the encore with "Fiar of Order Gray" was equally good. E. O. Kimberley sang "Sweet Bunch of Daisies," responding to an encore with "Your Presence." S. Kent's cornet solo "Safe in the Arms of Jesus" brought forth enthusiastic applause which compelled him to appear a second time, giving "I Cannot Sing the Old Songs." Miss Olive Tramballe played his accompaniments. "River-worth Rocks" and "Kittens and Babies," two readings by Mrs. H. H. Dickinson were received with marks of manifest appreciation.

STORY OF THE WRECK.

And a Story Fraught with Bitterest Memories.

The Awful Grandeur—The Terrible Meaning.

Echoes of a Lost Courage—The Star of a Rising Hope.

A decaying wreck on a wave washed shore. Bare-ribbed, sun-bleached, rotting inch by inch—a perfect picture of utter uselessness.

Is there not a strange analogy between this desolation and the wreck of your own hopes, your own life?

You are prostrated by physical and nervous weakness, unable to do your work with ease and comfort; every duty is a burden and you are weak, tired, enervated, exhausted. You feel that you are daily growing more and more nervous, you become anxious in mind, blue, disheartened and discouraged. You cannot eat or sleep well and your liver and bowels are irregular in action.

In fact, you are fast becoming a wreck. You will soon become useless—useless to yourself, useless to your family, useless to the world. And you will lie on the shores of time like the slow decaying ship, a burden to your family and friends, an object of pity or contemptuous indifference, while the winds of unfilled hopes, desires and ambitions disturb your repose, and the waves of bitter and vain regret lash you with the knowledge that you might have been cured if you had only taken your case in time.

What is the moral? Don't delay!

Delay has sacrificed more lives than war and famine combined. Thousands languish under nervous and physical diseases that are easily and readily curable now. Tomorrow or next week it may be too late, and the sufferer who delays when cure is within grasp is more foolish than the fool, more idiotic than the idiot. If you will use Dr. Greene's Nervura blood and nerve remedy your cure is assured. It will give you vigor of mind, power of intellect, strength of nerve, create a new digestion, regulate the action of all the organs, invigorate the blood, and restore the weak and run-down system, languishing under its weight of disease, to all its old-time health—bounding pulse, elastic step, strong and steady nerves, keen, zealous of mind and heart, renewed ambition and enjoyment of each hour as it passes.

It did all this for Mr. E. E. Adams, of South Walpole, Mass., who says:—"One year ago, I was to speak the truth, all broke up. Could not sleep and eating was a burden, and for over three months I could not lie down nights on account of rheumatism. Was way down in weight, only about 140 pounds, and did not care if I went up altogether."

"I then, after trying everything heard of all local doctors, began taking Dr. Greene's blood and nerve remedy, which has done the work. I can sleep all night, eat with the best of them and what I do eat does me good. Nervousness all gone; rheumatism almost forgotten, and my weight 187 pounds, and all with six bottles of Nervura. It is the one all-round remedy. I recommend it to everybody. Could give two or three cases that are as high in its praise as I am through what it has done for me."

"There is no person living who can use Nervura and not be faithfully without being benefited. What it has done for me it will do for others, if its directions are faithfully followed. All praise to Dr. Greene's Nervura."

Use Dr. Greene's Nervura blood and nerve remedy, for it is a physician's prescription, the discovery of our most successful specialist in curing nervous and chronic diseases, Dr. Greene, of 35 West 14th street, New York City, who can be consulted concerning any case, without charge, personally or by letter.

THE SURGEON'S KNIFE.

Once Believed to Be the Only Cure for Piles and Rectal Diseases.

A Better Way Now Discovered, Which Cures Every Form of Piles Without Pain or Inconvenience.

Many people suffer the pain, annoyance and often serious results from piles for years, and after trying the many lotions, salves, ointments and so called cures without cure or relief, give up the hope of a final cure, rather than submit to the intense pain and danger to life which a surgical operation involves.

Happily all this suffering is no longer necessary, since the discovery of the Pyramid Pile Cure; a remedy which is approved by the medical profession, as being absolutely safe, free from any trace of opiate, narcotic or mineral poisons and which may be depended upon as a certain cure (not merely relief) in any form of Piles, whether itching, blind, bleeding or protruding. Some of the hundreds of cures recently made are little short of marvelous, as a perusal of the following will demonstrate.

Major Dean, of Columbus, Ohio, says: I wish to add to the number of certificates as to the benefits derived from the Pyramid Pile Cure. I suffered from Piles for forty years and from itching Piles for twenty years, and two boxes of the Pyramid Pile Cure has effectively cured me.

Dr. J. W. Megan, Leonardville, Kan., writes: I have used a box of Pyramid Pile Cure and received more benefit and relief than from any remedy I had used in the past twenty-two years.

James Jamerson, Dubuque, Iowa, says: I suffered from Piles for six years; have just used the Pyramid Pile Cure and am a well man.

Mrs. M. C. Hinkley, 601 Mississippi St., Indianapolis, Ind., says: Have been a sufferer from the pain and annoyance of Piles for fifteen years, the Pyramid Pile Cure and Pyramid Pills gave me immediate relief and in a short time a complete cure.

The Pyramid Pile Cure may be found at druggists at 50c and \$1.00 per package. A book on cause and cure of Piles will be sent by mail, by addressing the Pyramid Drug Co., Albion, Mich.

STRENGTH FROM FOOD

But the Food Must be Digested.

There is no way to get strong without food. Food is the strength maker.

Just enough food, properly digested, makes the strong and healthy man or woman. Too much, too little, or even the right quantity, not digested, will make anybody weak.

The beginning of all sickness is weakness. The beginning of all weakness is indigestion. So to keep strong, look after your digestion. That is the most important point of all.

When your food ferments in your stomach and forms gas, causes dizziness, nausea, bad taste, sick headache, full feeling, nervousness, irritability, etc., you have indigestion. You are losing a part of your life. Every hour you are sick causes a loss of strength.

The way to cure it is to take Shaker Digestive Cordial. A few doses will relieve. If you take it long enough you will regain the strength you have lost.

Shaker Digestive Cordial is made from herbs and plants by the Shakers of Mount Lebanon. It contains very strong digestive tonic properties. It creates strength. It makes your food make you strong and bright and healthy. It clears your complexion and strengthens your body against disease. If you want to get strong and well, try a bottle.

Sold by all druggists at 10, 25, 50 cents and \$1.00 a bottle.

THIS DAY IN HISTORY.

814—Charlemagne, emperor of the west, died.
1807—Pall Mall lighted with gas, the first use of the illuminant for streets. Several experiments in illuminating with gas were made between 1799 and 1807. In 1799 Dr. Pictet, a chemist at Wurzburg, lighted his laboratory with gas produced by the dry distillation of bones, and in that year, also, Earl Dundonald of Scotland lighted Culross abbey with gas obtained from coal tar. The first practical use, however, is accredited to William Murdoch, who lighted his workshops at Cornwall with coal gas.
1850—William Hickling Prescott, American historian, died at Boston; born in Salem, Mass., 1796.
1888—Rear Admiral Clark H. Wells, U. S. N., died in Washington; born 1823.
1893—General Samuel Sprigg Carroll, U. S. A., retired, a prominent leader in the civil war, died in Washington; born 1832.

TOO MUCH CHARITY.

Hasn't there been too much of the charity that gives something for nothing? There is already a great change in this respect, and it appears in single instances here and there constantly. We learn from New York, for example, that the police board has determined to abolish the lodging houses long maintained in connection with the police stations. They have come to be catch pockets of sin and disease, and to occupy no truly useful place with any class of people. The city is fairly well supplied with privately organized institutions, which thresh out the good from the bad by the work test. What will become of the worthless, vicious tramps that have been housed there is a question. But it is for the tramps themselves to solve, since there are places where they can be cleaned, fed and housed by giving an hour or two of honest work. In the Methodist Herald of last week Rev. David Morgan gives an account of two or three of the so-called "soup houses," run by Christian people under the mistaken idea that they are doing the kind of work laid down for them by their Master. There is a place in the World's Fair city where, according to Mr. Morgan, they give free soup and free lodgings to the men if they only come to their prayer meetings. Mr. Morgan inquired the reason for this, and was told that the men would not attend the meetings otherwise. He answered "Imagine Jesus performing the miracle of the loaves and fishes because he could not get a crowd unless he did." He said at the close of his article that "A free soup house is as great a curse as a saloon, even if conducted by christian people."

It is possible that it may have proved a greater curse, in some cases. The saloon, while it takes away a man's self respect and decency in the long run, does not directly pauperize him.

LOOK OUT FOR THE TROLLEY.

The comparison of steam and trolley statistics is of considerable interest just now, as they are brought into marked competition wherever there is traffic of both kinds. The railroad commissioner of Massachusetts has just issued statistics showing that for ten years, up to 1893, the number of passengers carried to and from Boston by steam lines increased at the rate of 2,500,000 a year; while, since 1893 the number has fallen off to the extent of 4,563,000, the decrease for the past year being 750,000. This is obviously the result of the building of trolley roads throughout the suburban districts and there is absolutely no redress for the steam companies. General traffic remains but slightly changed, it being only suburban travel that is affected.

CAN'T MAKE SORGHUM SUGAR.

A few years ago Rock county was making sorghum sugar, and expected big returns. Today the industry is dead throughout the country. The cost of manufacturing exceeds the selling price, and the experiments made at an expense of over \$500,000, have failed to develop any method of overcoming this difficulty. Perhaps in the course of time a cheaper process will be discovered, but at present the outlook is not at all encouraging.

There will be general sympathy in Janesville for James and Thomas Morgan of Milwaukee who, though suffering business reverses for the second time, have preserved their reputation unimpaired. In these days of profitable bankruptcies such cases are rare.

Embassador Bayard mustn't think that the mild course congress will administer is any indication of the temper of the country. Nothing but

a careful reading of the newspapers will set him right in this respect.

Whatever the other issues may be the main one this year and for years to come will be the incapacity of the democratic party to administer the affairs of the government.

Janesville can't afford to let the Modern Woodmen picnic go to another town for lack of funds, even though funds be scarcer this year than ever before.

As soon as Indiana republicans decide what they intend to do about running Mr. Harrison for the presidency the country at large will have a word to say.

BASKET BALL BETWEEN GIRLS

High School Gymnasium Resounds to Their Cheers—More Games Planned.

The first game of basket ball ever played in the city by the girls took place in the gymnasium at the new High school building yesterday afternoon. Superintendent Mayne and the young men in general were notified to "keep out"; but they judged from the noise that the game must have been a success in every sense of the word. An effort is now being made to form a league among the High school members which will include the Seniors and Juniors, the Sophomores and the Freshmen.

NEW LEADER OF THE FORTNIGHTLY

J. J. Cunningham Succeeds E. Ray Inman as President—Decline in Membership.

The Fortnightly club is now under a new leader, Alderman E. Ray Inman having resigned because of pressure of business, while Attorney J. J. Cunningham takes his place. The Fortnightly club is not as strong numerically as it was some months ago. The last meeting held in the large auditorium at the High school was attended by twelve members and it was decided to give up the room.

DOG DROWNED BEFORE A CROWD

Broke Through the Ice and Was Unable to Regain Shore.

A valuable pointer dog was drowned at Monterey yesterday afternoon before the eyes of a hundred people. The dog tried to cross the ice but when in the middle of the stream near the "big rock," the ice gave way and the poor animal was unable to crawl out. It swam about desperately, whining and howling for at least an hour. Finally its strength gave out and it went under, its sufferings ended.

FORMING A COMEDY COMPANY

Earl Doty and Cyril Norman Are Preparing to Take The Road.

All the members are in the city, the paper is ready and plays are being rehearsed. "Blue Grass," "Faust" and "The Man Without a Country" are included in the repertoire.

Father Keeps a Saloon.

Montana papers are telling of a two-year-old child in that state that smokes cigars with as much apparent pleasure as a seasoned old smoker. The child is the son of a man named Stairs, who keeps a saloon near Bonner, in Missoula county, and who is said to have taken great delight in teaching the baby to pull at a cigar in turn with a bottle. Several persons tell of seeing the child provided with an apple and a lighted cigar, and of his sucking contentedly at the cigar in preference to the apple.

CITY CALLS WINANS IN THE WATER SUIT

ATTORNEY M'ELROY DRIVEN
WITH WORK.

Chief Acheson Wants James Ryan's
Saloon License Revoked—Protest
Made by J. J. R. Pease Against
Weed Tax—Report on the Steam
Roller Deferred.

Hon. John Winans was retained by
the city as attorney in the water
works controversy. Alderman Hed-
dles reported to the council that City
Attorney McElroy's time was occupied
with other city affairs, and that two
attorneys were needed, the water com-
pany having engaged additional counsel.

Chief Acheson asked that the license
for James Ryan's saloon, 114 West
Milwaukee street, be revoked, Ryan
being an annoyance to the police and
dangerous to the public because of

weed tax, was filed, with affidavits
from Michael Hickey and L. O. Wood,
that they had cut his weeds. The
weed commissioner claimed to have
cut them himself, and a tax of \$2 was
charged up against the property.

More Lights in the Spring.
Ald. Smith, from the gas light com-
mittee, stated that the committee

for electric lights in different parts of
the city. He further stated that the
ground was in such condition that it
was impossible to put them in at the
present time; that all the petitions
were under consideration and had not
been ignored, as many supposed,
but would be reported on in time to
be put in next spring.

The city engineer presented a pro-
file and grade of South Bluff street,
and on motion of Ald. Inman it was
adopted and placed on file.

SALVATION ARMY WANT A
JANESVILLE STATION.

Old Days Recalled, and the Belief Ex-
pressed That if Beloit Can Furnish
Big Congregations Nightly, Janes-
ville Can Do as Well—Staff Offi-
cers Make a Survey.

Janesville may soon have a full
fledged Salvation Army, with a revival
of the days of the drum and tambou-
rine. There were in the city today
Staff Captain Winchell and Captain
Davis, of Milwaukee, both prominent
members of the Army in Wisconsin.
Their object was to determine the
prospects for the success of the Army
in this city. They were both of the one
opinion that there is no better field in
the state for the Salvation Army than
right here in Janesville.

"I have heard a great deal about
your city," remarked Captain Winchell
to a Gazette man "but I never had
the pleasure of coming here for any
length of time. A number of the num-
bers here in the city have written to
headquarters at Milwaukee in the
hopes of getting the Army to locate
here and although we have never in-
vestigated the matter before, I think
I may say that the day is not far dis-
tant when the Army will be well es-
tablished in your beautiful city. The
plan that is now being mapped out at
headquarters is to include a number
of Wisconsin cities on a regular circuit
and among those included are
Baraboo, Ashland, Watertown and
Janesville."

Captain Winchell said he had
heard a great deal about the old army
days in Janesville and how the little
band of followers with the drum and
tambourine used to sing upon the Corn
Exchange square and thought that
there was no reason in the world why
a revival of that spirit should not
spring up and grow. In Beloit the
meeting hall is packed even when ten
cents admission is charged.

CASES OF POVERTY ABOUT TOWN

City Missionary Kimball Has Many Des-
titute Families to Look After

Many appeals for help come to the
charitable people of the city. A wo-
man with tears in her eyes told City
Missionary Mary Kimball that she
lived all alone on West Bluff street
and had been suffering for the want
of a fire. A message sent to the
Janesville Coal Company soon revealed
the fact that three cords of wood were
at Miss Kimball's disposal free of
charge, so this case was provided for.
Another woman said her six little
children were in want of food. Her
wants were also soon satisfied.

PLANNING FOR A NEW CREAMERY

Stockholders in the La Prairie Creamery
Meet to Discuss Butter Making

A business meeting of the stock-
holders of the La Prairie creamery
was held last evening at the Proctor
school house. A good sized crowd
were present and the meeting was
called to order by Chairman J. L.
Bear. An additional committee was
appointed consisting of George Turk,
J. S. Banfield and L. V. Paul to
work with the present committee in
securing stock. An expert butter
maker from Winnebago was present
and gave a practical talk on creamery
management, after which the meeting
adjourned till next Monday evening.

PLANS FOR A LEAP YEAR PARTY.

Arrangements are now assuming
shape for another leap year party to be

CE LIKE A FLOWER BUT A BAD TEMPER

PRETTY FLORENCE CEBALSKI'S
ODD WAYS.

Poison and a Razor Were Among the
Delights That She Promised Her
Husband—Judgment Was Entered
Against Three or Four Delinquent
Tax Payers.

John Cebalski was granted a divorce
from Florence Z. Cebalski, his pretty
nineteen year old wife by Judge Ben-
nett this afternoon.

He ought to be glad, if his story is
all true.

A wife may be ever so pretty, but
if she refuses to cook meals, chases
her husband with a razor, threatens
to poison him, keeps company with
other men and tells her lawfully wedded spouse that
she married him for "what she could
get out of him" he would seem to have
ground for complaint.

All these things Cebalski says that
his girl wife with a
face like an Easter lily was in the
habit of doing.

She is said to be the young woman
for whom a Janesville young man
tried to poison himself not long ago.
Arguments in the Mehar ca' Green
case were in progress before Judge
Bennett all this afternoon.

The city entered judgment this af-
ternoon against three or four prop-
erty owners who have failed to pay the
special tax for grading Fifth and
Fifth avenues.

TRUSTING WOMEN.
THEIR CONFIDENCE OFTEN LEADS TO SUFFERING.
An Ohio Woman's Experience, as Here Related, is Interesting to Every American Woman.

[SPECIAL TO OUR LADY READERS.]

It is a very sad fact that the more a woman trusts to the skill of her physician in treating her female complaints, the longer she is apt to suffer.
Lydia E. Pinkham fully realized this fact when she commenced that exhaustive study that has enabled the women of the world to help themselves. She discovered the source of female complaints, and produced the Vegetable Compound, which is their absolute cure.
When such testimony as the following is given, the woman who thinks should act quickly, and no longer permit herself to trust to incompetent doctors. The Vegetable Compound is sold by all druggists, and every woman should have it.

"The doctors had told me that unless I went to the hospital and had an operation performed I could not live. I had falling, enlargement, and ulceration of the womb.
"I was in constant misery all the time; my back ached; I was always tired. It was impossible for me to walk far or stand long at a time. I was surely a wreck. I decided that I would give your Compound and Sanative Wash a trial.
"I took three bottles of Lydia E. Pinkham's Vegetable Compound, and used two packages of Sanative Wash, and I am now almost well. I am stouter and healthier than I have ever been in my life. My friends and neighbors and the doctors are surprised at my rapid improvement. I have told them all what I have been taking."—Mrs. ANNETTA BICKMEIER, Bellaire, Belmont Co., O.

He rose steadily until he reached the top, where he has been for 15 years. He is a man of moderate fortune and quiet tastes. He lives at Bala, Pa., near Philadelphia.

Busy Career of a New Woman.

At the head of the woman's department of the Cleveland centennial celebration is Mrs. Mary B. Ingham, who may well claim to be one of the pioneer women of Ohio. She began her work over 25 years ago and has been keeping up with the procession ever since.

In 1874 Mrs. MARY B. INGHAM became prominently identified with the women's temperance crusade in Cleveland and for six weeks led a praying band. She devoted, in all, nine years of her life to work in the slums and is an ardent admirer and supporter of the Salvation Army work. She was one of the founders of the National Woman's Christian Temperance union, the Cleveland School of Art and the Daughters of the American Revolution.

A VICTIM OF CIVILIZATION.

A Georgia Mayor Who Let a Man Get Drunk for Old Times.

"Uncle Ike," as they call him in Montezuma, has always been a queer character, says the Atlanta Constitution. Years ago, as the story goes, he lived up in the edge of Taylor county, and every Saturday would come to town to get drunk and have a rousing time with the boys. The old man finally decided to emigrate to Texas, where he remained several years and then returned to his old place.

The old man looked sad and dejected when he was told that since his departure Montezuma had become civilized enough to have sidewalks and the telegraph. He couldn't believe it till he went to town and saw it with his own eyes and when he realized the truth the old man wept like a child.

He hunted up the mayor and told him that he was 60 years old and had no hope of living through the winter. He had come to town expecting to get drunk, ride his old mule through saloons and do considerable shooting and yelling, and it saddened the mayor's heart to tell him that any such conduct would result in his arrest. Tears were falling down his aged cheeks as he asked his official permission to ride through just one saloon and shoot six holes in the mirror behind the bar. When he had to refuse it, he begged to be allowed to gallop up and down the street and shoot at glass insulators on the telegraph poles. His honor couldn't sanction that, either, but after discussing the matter he made a compromise with him. It was agreed that he might stand on the public square and utter a dozen old-time hoots and then go and get drunk, but there was to be no riding or shooting.

Old Ike selected 7 o'clock in the evening as his hour, and the city marshal was on hand to count his hoots. The first three brought everybody into the street, and the next three started half the population out of town. The last one was a grand wind-up, which jarred the shingles on the roofs, and when he got through the old man felt himself ten years younger. An hour later he was blind drunk and by the mayor's permission he was laid away on a bed of shavings in a carpenter shop.

The mayor didn't deny that it was against the ordinance, and he certainly had no legal authority to permit it, but he wanted to make old Ike happy once more and he was willing to take the responsibility.

OUR WOBBLY EARTH.

It Is Poised Delicately and Slightest Variations Are Noticeable.

The discovery that the axis of the earth is not fixed in direction but that it swings round in such a way as to cause the north pole itself to revolve once in every fourteen months round a circle ten yards in diameter is now generally accepted as an established fact, says the Pittsburg Dispatch. It is evident that such a wobbling of the earth's axis of rotation, small though it be, must produce some effect upon the level of the ocean at its shores, and an examination of the very careful records, which have been kept for more than forty years, of the height of the tide in the canal at Helder, in Holland, was recently made for the purpose of determining whether such an effect could be perceived. The result of the examination showed that the average level of the water had varied with great regularity, in a recurring period of fourteen months, ever since the tide records were begun in 1851. The inference is that the regular change of level must be due to the swinging round of the axis of the earth. The amount by which the level changes—a little less than five-eighths of an inch—also corresponds to the calculated change that should result from the supposed cause. So we are gradually learning to appreciate how delicately the ponderous earth is poised as it swings in its vast orbit round the sun, and how even the mighty ocean responds to the slightest tipping this way and that of the great axis of the globe.

A New Cane.

A newly elected member of congress from the west has a cane that will inaugurate a fashion. It looks like an ordinary gold-headed cane, rather larger than is fashionable. But upon close acquaintance there are some peculiarities developed that will serve to make it very popular. By simply unscrewing the head a little tube about the size of a straw appears and by placing this in the mouth and meditatively resting the lips against the head of the cane all desire to go out between the acts is taken away and the worst case of thirst that ever troubled a theatergoer can be appeased. It is probable that the cane habit will develop into a fad with attendants at the theaters.

So Goes the Story.

The bloodstone has a pretty superstition attached to it. According to an old legend, at the time of the crucifixion some drops of blood fell on a piece of dark green jasper that lay at the foot of the cross. The crimson crept through the structure of the stone and this was the parent of this beautiful jewel. The dark red spots and veins were supposed to represent the blood of Christ and many wonderful properties were attributed to the stone. It was thought to preserve the wearer from danger, to bring good fortune and to heal many diseases.—Exchange.

All in the Family.

The old house of the Aldens at Duxbury, Mass., built about 1650, is now occupied by the ninth John Alden in direct descent from the John whose pretty love story is so well known. He has a little daughter, Priscilla Mullins, too, says a writer in the Boston Transcript, but her brother the tenth John Alden, was killed by lightning in a storm last summer; so the line of John Alden is now broken.
